

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	27 June 2026
Team ID	RACHANA-TEAM
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	- Registration through Form - Registration through Gmail - Registration through LinkedIn
FR-2	User Confirmation	- Confirmation via Email - Confirmation via OTP
FR-3	Request Management	- Create new network request - View request status - Edit / Update request - Cancel request
FR-4	Notification Management	- Email notifications for request updates - Real-time notifications in portal - Reminder notifications
FR-5	Admin Management	- Review and approve / reject requests - Manage users and roles - View reports and analytics

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should be easy to use with a simple and intuitive interface.
NFR-2	Security	The system should ensure data security, authentication, and role-based access control.
NFR-3	Reliability	The system should be reliable with minimal downtime and consistent performance.
NFR-4	Performance	The system should respond quickly and handle multiple requests efficiently.
NFR-5	Availability	The system should be available 24/7 for users with minimal service interruptions.
NFR-6	Scalability	The system should be able to handle increasing users and requests as the organization grows.
