

Project Design Phase Proposed Solution Template

Date	27 June 2026
Name	RACHANA CHALLA
Project Name	Automated Network Request Management in ServiceNow
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Employees face delays and lack of visibility while raising network requests. The manual process through emails and spreadsheets leads to errors, repeated follow-ups, and no tracking.
2.	Idea / Solution Description	Automate the end-to-end network request process using ServiceNow Service Catalog, Approval Workflows, Catalog Tasks, and Notifications for better tracking, collaboration, and efficiency.
3.	Novelty / Uniqueness	Provides an integrated, role-based automated workflow in ServiceNow for network requests with real-time status updates and automated notifications.
4.	Social Impact / Customer Satisfaction	Reduces request turnaround time, improves transparency and communication, enhances user satisfaction, and ensures timely network services.
5.	Business Model (Revenue Model)	Internal operational efficiency improvement leading to cost and time savings; can be extended for other departments and services in the future.
6.	Scalability of the Solution	The solution is built on ServiceNow platform which is highly scalable, configurable, and can support a large number of users, requests, and additional services in the future.
